Frank L. McPhillips, M.D.

When?

**August 13th and 20th
9am – 4pm by appointment**

Cost?

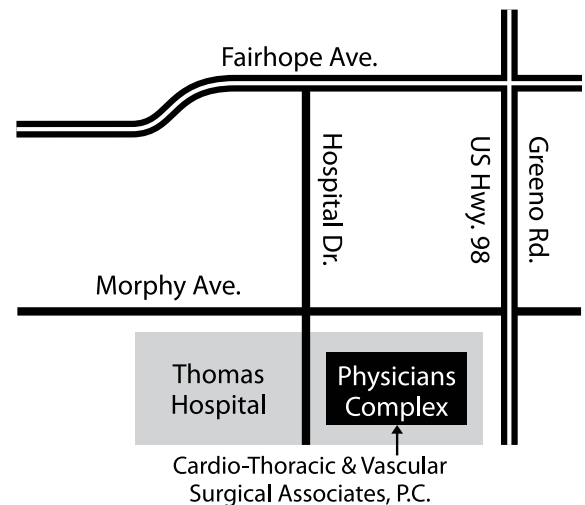

**FREE with appointment
Call (251) 471.3544**

What is the screening program?

The screening program is designed to assess for venous disease, venous reflux, venous insufficiency, and risk associated with DVT and venous obstruction.

The program evaluates the health of the leg veins and assesses the risk of getting blood clots.

The screening process is non-invasive, painless, and FREE.
